

Earth Supplied Products

Conventional Raw Material Catalog

In August of 2000 Earth Supplied Products was formed with the goal to provide new and unique ingredients from around the world to the Personal Care industry. With over 1000 raw materials available we have one of the largest selections of ingredients in the Personal Care industry. Our commitment to supplying you with the finest functional natural and organic raw materials is reflected by our memberships in the Organic Trade Association and full participation in the European R.E.A.C.H. program. Through these associations and more we promise to always supply you with high quality and sustainable natural products.

Conventional Raw Material Catalog

At Earth Supplied Products we look forward to helping you create the best formulas possible for your personal care customers. We have over 100 prototype formulas available for your evaluation if needed. These formulas have been verified as stable and are great guides to help you with your upcoming projects. If you don't see a specific raw material you need on this list please ask us if we are able to source it. Our extensive experience in the natural & organic products marketplace is always available to help you research and source the raw materials that will meet your formula and marketing needs.
