

Earth Supplied Products

Organic Raw Material Catalog

In May 2007 Earth Supplied Products became one of the first and only Personal Care industry raw material suppliers to achieve certification by the United States Department of Agriculture National Organic Program (USDA NOP) as a producer, handler and processor. With over 500 Certified Organic raw materials available, we believe we now have the largest selection of USDA NOP Certified Organic ingredients in the Personal Care industry. Our commitment to supplying you with the finest functional organic and natural materials is reflected by our memberships in the Organic Trade Association and full participation in the European R.E.A.C.H. program. Through these associations we promise to supply you with high quality and sustainable natural products.

USDA NOP Certified Organic

Overview

Personal Care industry formulations constructed under the United States Department of Agriculture National Organic Program's guidelines require unique raw materials, special considerations, and certified production facilities. Earth Supplied Products, LLC knows what you need to make successful creams, lotions, cleansers, and other USDA NOP Certified Organic formulas.

What does "organic" mean?

"Organic" is more than just a marketing claim — it is also a legal claim. The USDA NOP defines and regulates the lawful usage of the term "organic" and its application in agricultural and agriculturally derived products. Adherence to USDA NOP rules and usage of the USDA NOP seal is administered by licensed certification agencies that ensure companies do not use pesticides, fertilizers, irradiation, Genetically Modified Organisms (GMOs), petroleum & synthetic ingredients; as well as enforce many additional and rigorous standards.

The USDA's definition of "organic" and its NOP guidelines have been adopted by the Personal Care & Cosmetics industries in order to provide

What claims can be made?

The USDA NOP defines three (3)* categories of label claims that can be made:

*By regulation all other materials are excluded from any USDA NOP Certified Organic product.

	Label Claim	Certified Organic Content (% by weight excluding water and salt)	USDA NOP Organic Seal? 
1.	"100% Organic"	100% of content is certified 100% Organic	✓ Yes
2.	"Organic"	Greater than 95% of content is 100% Organic or Organic (Remainder is 205.605 or 205.606 compliant)	✓ Yes
3.	"Made with Organic" (205.605 & 205.606 Compliant)	Greater than 70% of content is 100% Organic or Organic (Remainder is 205.605 or 205.606 compliant)	✗ No

Organic Raw Material Catalog

At Earth Supplied Products we look forward to helping you create the best formulas possible for your personal care customers. We have over 100 prototype formulas available for your evaluation if needed. These formulas have been verified as stable and are great guides to help you with your upcoming projects. If you don't see a specific raw material you need on this list please ask us if we are able to source it. Our extensive experience in the natural & organic products marketplace is always available to help you research and source the raw materials that will meet your formula and marketing needs.
